VAUGHAN'S NOVELTIES AND SPECIALTIES FOR 1913

TO THE SEED TRADE—For your 1913 Catalogue

This preliminary list of Vaughan's Novelties and Specialties for 1913 is issued for the convenience of those desiring to list them in their 1913 seed catalogues. Any of the cuts shown on these pages sent free with a reasonable order for seeds or bulbs which they represent.

VAUGHAN'S GLADIOLI

We are growers of Gladioli in a large way, and we are introducers of the best selling new varieties. Our Princes and Mrs. Francis King have become notable leaders in the East and West. Chicago White and Kunderdi Glory, Ruffled, named here, will no doubt prove equally valuable. Besides these named kinds we are carrying mixtures in several grades, including mixed from named kinds.

NEW TYPE OF GLADIOLI KUNDERDI "GLORY"

WITH "RUFFLED" PETALS

The broadly expanded, wide open flowers, paired by twos, all face in the same direction and are carried on straight stout stalks, fully 3½ feet. From three to eight of these handsome flowers are open at one time. Each petal is exquisitely ruffled and fluted.

The color is a delicate cream pink, with a most attractive crimson stripe in the center of each lower petal, the shade of which is unique in Gladioli. The ruffling of the petals in this new strain has attracted much attention the country over. It is claimed by the grower, who has worked out this type, that later on he will have a wide range of colors in this class. He claims distinctness in form, even as the "Spencer" types of sweet peas exceed the old forms. The following expert opinions indicate the value of Kunderdi Glory:

"Ruffled" is in gloom. Grand does not express it. It is the "Sanspareil" of all gladioli.—L. Merton Gage

"I am glad to hear of your continued success with the ruffled Gladioli.

KUNDERDI GLORY—Electro A

The cream-colored variety is very beautiful indeed; good color, fine spike and substance, and exquisite in finish."—W. Van Fleet.

"The Ruffled Gladiolus, like the ruffled sweet peas, has a refined appearance which the common flat ones do not possess."—Luther Burbank.

Price—Per 100, \$5.00; per 1000, \$43.00 (250 bulbs at the 1000 rate); lots of 3000 at **\$40.00 per 1000.**

CHICAGO WHITE

THE EARLIEST WHITE

The flowers are well expanded, well placed upon the stalk, pure white with faint lavender streaks in the lower petals. In form they resemble the Childsii type. They are borne on tall straight stems and from five to 7 flowers are open at one time. It is one of the **earliest** varieties to bloom, hence valuable as a cut flower sort, either for forcing or outdoor planting. As a 1912 novelty, it has attracted wide attention and much favorable comment.

We firmly believe the Chicago White is sure to make a name for itself as soon as the crop increases sufficiently to give it general distribution. Seedsmen buying it now will make good profit in growing it later on. In the Chicago market the spikes sold freely.

Price—First Size Bulbs, per 100 \$7.50; per 1000 \$65.00.

We do not warrant in any way, expressed or implied, the description, quality, productiveness or any other matter of seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on the above terms, he must return them at once and money will be refunded. Subject to the above conditions and by reason thereof, we make the moderate prices at which we sell our goods.

MRS. FRANCIS KING

THE LEADING DECORATIVE GLADIOLUS FOR THE TRADE

This has become the most popular and effective variety for window, store and hotel decorations. The long, strong flower stalks with foliage, and its effective flower spike with a good line of reserve buds continually opening, and with flower $4\frac{1}{2}$ inches across, and five to six flowers well spread out on the spike at the same time, gives for vases, in hotel lobbies and dining rooms, parlor decorations, etc., an effect not produced by any other Gladiolus. The color, brilliant Flamingo Pink blazed with vermilion red, is most effective both in daylight and under artificial light. As a seller in flower stores it has brought better prices than any other kind except America, which, of course, with its soft pink color, excels Mrs. Francis King for floral design work and for that only. Every seedsman will find this as profitable a variety as he can offer.

Price—First Size per 100, \$1.75; per 1000 \$16.00.
Second Size per 100 \$1.50; per 1000 \$14.00.

VAUGHAN'S PRINCEPS

Princeps has more than verified, by its wonderful popularity in both Europe and America, the claims made by us in introducing it in 1903. Its wonderful size of flower, perfect shape, brilliant coloring and artistic form of flower spike are each so notably an improvement over all other varieties that all combined place it in the front rank. The flowers are 5

to 6 in. broad, the petals

PRINCEPS—Electro A
are very wide and rounded, well reflexed, forming an almost circular flower. The color is brilliant scarlet-crimson, carrying mostly three broad white blotches on the lower petals. Spikes 4 ft. in height produce 12 to 15 flowers, opening in succession, forming continuous bloom for two weeks.

Price—First Size Bulbs per 100 \$8.00, per 1000 \$70.00;
Second Size Bulbs per 100 \$6.75, per 1000 \$60.00.

AMERICA

This beautiful variety with its soft lavender pink color, its full symmetrical spike, with its rounded double row of many flowers in bloom at one time, has been accepted with great enthusiasm by the cut flower growers; they found the blooms not only very popular with the public as cut flowers, but that the bulbs could be planted in greenhouses in winter, and thus bloom very early. It has had a very large sale, and will probably this season be more in demand than any other named sort, not even excepting Mrs. Francis King. Our bulbs are mainly of the introducer's stock, and are sound and healthy. Has received many exhibition honors.

Price—First Size per 100 \$2.75; per 1000 \$24.00.
Special Mailing Size per 100 \$2.50; per 1000 \$21.00.

Write for price on other sizes.

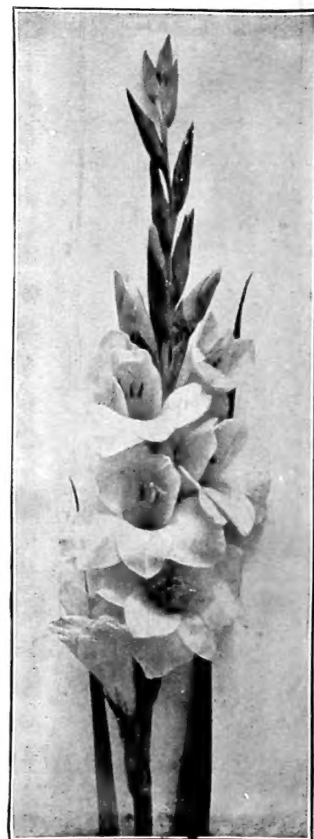

MARGARET

A vigorous grower 5 to 6 feet, with broad foliage. The spike is straight and strong. The flowers are large, beautifully arched and arranged in two rows facing the same way, with 6 to 8 open at a time. The color is a brilliant carmine with a large white blotch on lower petals, the white and carmine blending into a violet tint. A good cut flower.

Price—Per 100 \$12.00; per 1000 \$100.00.
